

testing::TestEventListener

```
classDiagram
    class testing__TestEventListener
    class testing__EmptyTestEventListener
    testing__EmptyTestEventListener --|> testing__TestEventListener
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'testing::TestEventListener'. Below it, a horizontal line connects two boxes: 'testing::EmptyTestEventListener' on the left and 'testing::EmptyTestEventListener' on the right. A vertical line descends from the center of this horizontal line and terminates in an upward-pointing arrowhead directed at the bottom of the 'testing::TestEventListener' box, indicating that both subclasses inherit from the superclass.

testing::EmptyTestEventListener

testing::EmptyTestEventListener
