

testing::TestEventListener

testing::TestEventListener

testing::EmptyTestEventListener

```
classDiagram
    class testing__EmptyTestEventListener["testing::EmptyTestEventListener"]
    class testing__TestEventListener["testing::TestEventListener"]
    testing__EmptyTestEventListener --|> testing__TestEventListener
```

The diagram illustrates a class hierarchy. At the bottom is the base class 'testing::EmptyTestEventListener'. Two arrows point upwards from this base class to two separate boxes at the top, both labeled 'testing::TestEventListener', indicating that both top-level classes inherit from the base class.
